Comments

Congratulations to all winners, especially to PA3DZL for winning MULTI-BAND again. Activity on most bands was like last year, although 23cm figures were affected by the Super Aurora ("Gannon storm"). 24 GHz was amazing with 10 stations active and 7 entries! Many well known CW EME Ops were missing this time due to different reasons, e.g. OH2DG, OZ4MM, ES5PC, OK1CA, SM6FHZ, 9A5AA, S59DCD etc. This is the only remaining CW only contest, if you want to keep it alive, please be active AND send an entry! Please consider subscribing to DUBUS in order to support this contest. Many thanks! See 2025 dates below.
